Ship rules

Safe and comfortable on board together

On a ship everyone works together. These agreements keep the trip safe and pleasant for the whole group. Go through them with the group before you travel.

Safety

1. Instructions from the skipper and deckhand always come first.
2. Don't sit on the railing, don't run on deck and don't lean overboard.
3. Into the bowsprit net only wearing a life jacket and with the crew's permission.
4. Swimming only after agreeing with the skipper and group leaders.

Living together

5. Cooking teams and duties follow the group leaders' rota.
6. Keep your cabin tidy and store bags in the cabin.
7. Only toilet paper in the toilet, nothing else.
8. Keep showers short: the water comes from the ship's tank.
9. From 22:00 it's quiet time on deck: no more noise on deck, and below deck is quiet too.

School or group rules

10. The school's or group's rules apply to alcohol, smoking and phone use.
11. Smoking only on deck, never below deck.

In an emergency

12. Put on a life jacket when the crew tells you to.
